CAREER SUMMARY:

Enthusiastic Software Engineering student with skills in C++, HTML, CSS, and JavaScript and more languages. Experienced in creating simple and user-friendly software and websites. Strong problem-solving abilities and a team player.

WORK EXPERIENCE:

BYTESFORT

Internship | July 2024 - Oct 2024

- During my internship, I focused on front-end development, primarily working with HTML, CSS, JavaScript, and React to build and enhance responsive user interfaces. I collaborated closely with designers to implement visually appealing, user-friendly web pages and optimized site performance for a seamless user experience across different browsers. In addition to developing interactive features, I gained valuable experience in debugging and troubleshooting front-end components.

RELEVANT PROJECTS:

TIC-TAC-TOE (GAME)

- using Html , Css , Javascript

AUTOMATED-BANKING-SYSTEM

- using C++ , Object Oriented Programming

QUIZ TAKING CLONE

- using C++

EDUCATION:

2022 - 2026 | Lahore Garrison University

Bachelor of Science in Software Engineering

SKILLS:

- Communicational Skills
- Html , Css , Javascript
- C++
- Sql
- Git & Github
